EDUCATION

**DOUBLE DEGREE IN
COMPUTER SCIENCE
ENGINEERING AND
TELECOMMUNICATION
SYSTEMS ENGINEERING**
2019-2026

Autonomous University of Barcelona,
Barcelona, Spain

KEY SKILLS

- Advanced coding
- Cybersecurity
- Linux
- Excellent communication
- Organized
- Data analytics
- Cloud

LANGUAGES

- English - Native
- Spanish - Native
- Catalan - Native
- Chinese - Basic

PROFILE

Curious and solution-oriented professional with a strong technical background in software, networking, and communication systems, driven by innovation and problem-solving. Proven experience in developing innovative solutions and leading international initiatives. Co-founder of ImpulsEurope (impulseurope.org), an organization focused on centralizing and streamlining youth opportunities, and creator of pdfinspect.com, a cybersecurity project specializing in the analysis and validation of digital PDF signatures to prevent spoofing and fraud.

EXPERIENCE

-SOFTWARE DEVELOPER • 01/2024 - 09/2025

Qubiq S.L. Barcelona, Spain

Worked as a Software Developer at Odoo, where I was responsible for designing, building, and maintaining custom business modules tailored to client needs using Python, SQL, JavaScript, and XML. I actively contributed to Agile development teams, participating in sprint planning, code reviews, and daily stand-ups to ensure alignment and continuous improvement. Leveraged Git for version control and collaborated on feature branches to maintain clean and efficient workflows. Deployed and managed solutions on AWS, optimizing performance and scalability across cloud environments. In addition, I worked extensively within Linux-based systems, utilizing advanced command-line tools and shell scripting to automate tasks, troubleshoot deployments, and fine-tune server configurations.

-GOOGLE WORKSPACE SUPPORT ENGINEER • 03/2023 - 01/2024

WebHelp Group Barcelona, Spain

In this role, I provided technical support for Google Workspace users, focusing on network configuration, protocol setup (including HTTP, DNS, and SSL/TLS), and overall system security. I was responsible for configuring secure access, and ensuring compliance with best practices in network protection.

I regularly reported and tracked bugs, collaborating with engineering teams to resolve issues efficiently and improve platform stability. My work involved frequent use of Linux environments, where I applied advanced command-line skills for troubleshooting and system optimization.

CERTIFICATIONS

-Azure Essentials (Microsoft) -Data analyst Bootcamp 07/2025 (IT Academy)

-Introduction to Cyber Security

-Certificate (THM)

-Red Teaming Certificate (THM)

INTERESTS

-Chess

-Football

-Travel

Additionally, I developed practical expertise in vulnerability management, identifying risks and implementing remediation strategies to maintain secure and resilient infrastructure.

-SOFTWARE ENGINEER (INTERN) • 02/2022 - 03/2023

Idneo(Ficosa) Parets del Vallés, Spain

My responsibilities included software design, testing, and integration across various types of embedded hardware platforms. I contributed to the development and validation of automotive and industrial systems, ensuring seamless interaction between software components and hardware interfaces.

During this role, I worked extensively with the Yocto Linux distribution to build and customize embedded Linux environments, tailoring system images to meet specific project requirements. I also handled large volumes of system logs and logger configurations, using them to diagnose issues, monitor performance, and support debugging efforts throughout the development lifecycle.
